## Warning against spoofed e-mails using the name of our company

It has come to our attention that spoofed e-mails using the name of our company, COMSYS Holdings Corporation, have been circulating, which falsely offer employment for a position of Vice President of a fictitious U.S. Division within our company.

Please be advised that we are not making any such recruitments, and are in no way connected to these messages.

Please beware not to open or respond to any suspicious e-mails.
